RE: Comment Letter – Proposed Recycled Water Policy

Dear Chair Doduc and Members of the Board:

The Southern California Alliance of Publicly Owned Treatment Works (SCAP), representing 84 public agencies providing water and wastewater services to more than 18 million people in Southern California, fully supports the position taken by the California Association of Sanitation Agencies (CASA), the California Section of the WaterReuse Association, and the Association of California Water Agencies (ACWA) in requesting that your Board not adopt the draft Recycled Water Policy for California.

We feel that it is imperative that adoption of the draft Policy be delayed until such time as all of the significant issues of concern to our members are satisfactorily addressed.

Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads "John Pastore". The signature is written in a cursive style with a large, stylized "J" and "P".

John Pastore
SCAP Executive Director
