

## City of Tacoma Washington

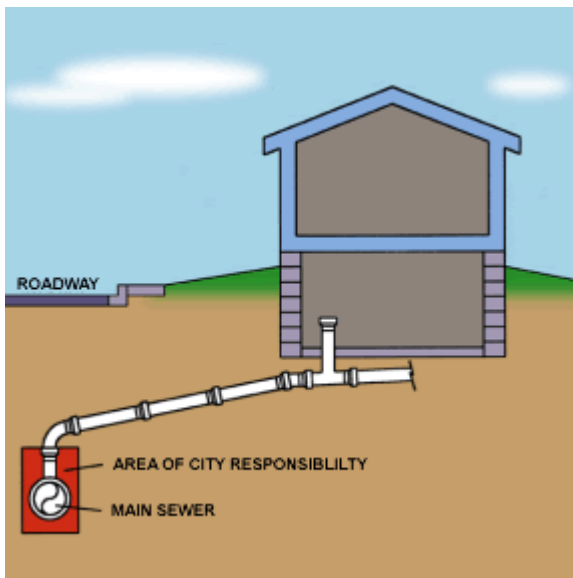

### Low-interest sewer repair loans

If your home has a broken side sewer connecting to the City of Tacoma's main sewer line, we might be able to help you pay for the repairs or replacement. The City offers low-interest loans to qualified homeowners and business owners [link to Business & industry/Business sewer loan] for up to 90 percent of side sewer repair or replacement costs.

The first of its kind in Washington, the residential loan program features an interest rate at 2 percent below the prime rate on amounts between \$1,000 and \$10,000, secured through a security interest (lien) in the project property.

We'd be happy to guide you through the construction bid process for side sewer repairs. Please call us at 253-591-5588 or check out our troubleshooting guide.

If you think you might fall under low-income guidelines, the City of Tacoma also offers a home repair loan program through the Economic Development division that could be used for sewer repairs. For more information about this program, call 253-591-5236.

The side sewer, often referred to as a lateral sewer, carries your home's waste from toilets and drains to the City's main sewer line on its way to the wastewater treatment plant.
